

Describe each habitat to your leader on Planet Doom. Remember, he has never seen any of these habitats – he doesn't even know what a desert is! What does it look like? Feel like? What is in it? Use adjectives from the exercise you've just done and write in proper sentences. Finally, give it a mark out of 10 as a place to live. We've done an example.

Morph's Habitat Report		
Habitat	Description	Mark out of 10
Sk y	One minute the sky is bright blue, the next it's stormy and grey. Fluffy, white clouds move around in the cold breeze. Sometimes water falls from these clouds and this is called 'rain'. There are plenty of birds flying around. It's quite chilly.	6/10 (if we live here, we'll need wings)
