## Errors on page

If you can't see the SoundCloud box and instead see a greyed error message like the one below.

Follow these steps:

1. Try refreshing the page. In most cases, playback hiccups are only temporary.
2. Check to make sure you have the latest version of your browser, and Flash installed.
3. Clear your browser's cache and cookies, and then restart it.
4. Disable any extensions or ad-blocking plugins that could be blocking SoundCloud from working properly and add soundcloud.com to the exceptions list in the plug-in settings of your browser.
5. If you're in a school, check to see if they have restrictions on accessing SoundCloud on the network.
6. Try a different browser (such as Firefox, or Chrome) to see if it is a local issue on your browser.
